

RUBBER FLOORING SYSTEMS

VERSATILE | DURABLE | SAFE | STEADY QUALITY

home application

APPLICATION

▶ DURABLE

With a 5-year-warranty, ELEPHANTFLEX™ is made to last life of the application without cracking or breaking. ELEPHANTFLEX™ can be installed in areas of heavy foot traffic (airports, stations, walkways, etc), where the product will last for the intended life of the building.

Manufactured by other company in AMERICA

▶ SAFE & SOUND ABSORBENT

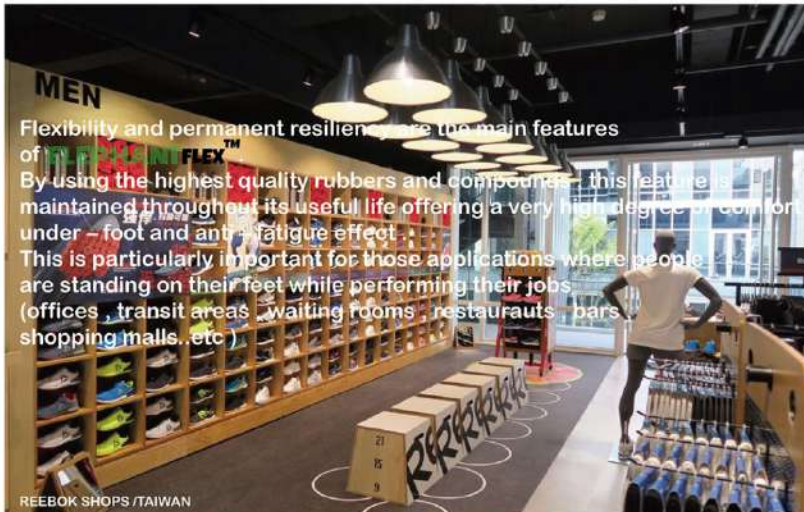

Safety is the first concern of commercial applications. With ELEPHANTFLEX™ you are compliant and the excellent performance in slip resistance, fire behavior and smoke emission assures the safety in the workspace and public areas. All products are made with raw materials that are not known to pose any hazard to the environment and to the people during the manufacturing and handling process; free of asbestos, free of halogens and free of PVC.

The use of highly flexible compounds ensures a high level of noise abatement thus creating a quiet environment .

▶ FLEXIBLE RESILIENT & ANTI - FATIGUE & ECONOMICAL

Flexibility and permanent resilience are the main features of **SLAMMERS FLEX™**. By using the highest quality rubbers and compounds - this feature is maintained throughout its useful life offering a very high degree of comfort under - foot and anti - fatigue effect . This is particularly important for those applications where people are standing on their feet while performing their jobs (offices , transit areas , waiting rooms , restaurants , bars , shopping malls , etc)

REEBOK SHOPS /TAIWAN

There is no question that **SLAMMERS FLEX™** is the most economical due to its long life cycle and low maintenance .

LIFE RUBBER

NIKE SHOPS /TAIWAN

▶ STEADY QUALITY & ENVIRONMENTALLY FRIENDLY

In order to keep the high quality of **ELEPHANT FLEX™** We use the polyurethane which was manufactured from Switzerland to coat our material .

LIFE RUBBER FLEX™ contains a high percentage of recycled rubber and contains no substances that harm the environment. It is halogen free, formaldehyde free and PVC free. **LIFE RUBBER FLEX™** itself can be fully recycled and do not generate toxic substances at the end of its life.
